Education

Texas State University
Bachelor's Degree in Computer Science

Full-Stack Developer | Frontend-Focused with Backend Experience

Proficient in building scalable web applications, optimizing front-end performance, and integrating APIs. *Experience developing* ***full-stack applications*** *with modern frameworks and databases. Seeking a* ***Junior Full-Stack Developer*** *role to contribute to production-level projects.*

Technical Skills

- **Languages:** JavaScript , TypeScript , Python, C++, Java
- **Front-End:** React.js, Next.js , Redux, HTML, CSS, Tailwind, Bootstrap, Vite,
- **Back-End:** Node.js, Express.js, PostgreSQL, Firebase
- **Performance & Debugging:** Frontend performance optimization and debugging tools (e.g., Chrome DevTools)
- **Cloud & Deployment:** Render, Firebase
- **Server & API Development:** Proficiency in developing backend servers and APIs with Node.js / express.js
- **Tools & Workflow:** Git, API Integration, Figma

Projects

💡 **Smart Lights Interface** *([Github](#))*

- Created a custom smart lighting interface using React & Express.js.
- Integrated Tuya's API for seamless smart device control.
- Designed a futuristic UI inspired by Blade Runner 2049 using Figma.

🎬 **Movie Theater Application** *([Live Demo](#))*

- Developed a full-stack movie ticketing system using Vite, React, Bootstrap, Express.js, and PostgreSQL.
- Implemented dynamic filtering by location, showtimes, and ticket purchasing.

- Integrated Redux for efficient global state management.
- Deployed via Render for frontend, backend, and database hosting.
- Focused on replicating real-world industry standards in functionality and design.

Experience

Lauren Concrete — IT Support *(Apr 2024 – Present)*

- Provide IT support across networking, switches, Microsoft 365, Azure, and on-prem Active Directory.
- Participate in meetings discussing application development, system integrations, and IT infrastructure.
- Assist in managing cloud and on-premise systems, gaining exposure to enterprise-level solutions.

Austin Community College — Educational Technologist *(May 2022 – Apr 2024)*

- Provided technical support for classrooms, troubleshooting AV equipment, computers, and network issues.
- Assisted with event setups, ensuring proper functionality of IT and presentation equipment.
- Supported faculty with Blackboard, Office 365, and other educational platforms to improve usability.

Texas A&M Health Science Center — IT Technician Level I *(Jan 2018 – May 2022)*

- Provided **technical support and troubleshooting** for **web-based applications** and internal systems.
- Assisted in **network and server maintenance**, gaining experience with **database management & cloud tools**.
- Wrote documentation and conducted user training on **software tools & platforms**.
